PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 4+ years of experience building scalable SaaS and product platforms using React, Node.js, .NET Core, AWS, and Snowflake. Delivered enterprise solutions serving 2M+ users across India, specializing in payment systems, cloud platforms, data analytics, and AI-driven automation. Recipient of the Grow Indigo AI Innovation Award (2026) and the Snowflake Data for Good APJ Award (2025).

EXPERIENCE (4+ YEARS)

SOFTWARE DEVELOPMENT ENGINEER II | GROW INDIGO (Series B, \$24M funded)

Aug'21-- Jun'26

- Promoted to **SDE-II** in July 2025 for driving platform scalability and team mentorship.
- Led SaaS platform transformation to multi-tenant architecture**, enabling global scalability for enterprise solutions. (Product link: growindigo.co.in/agri-cloud).
- Reduced operational costs** by 35% by automating reconciliation workflows and optimizing Snowflake queries, **significantly reducing manual effort** and improving processing accuracy by 40%.
- Integrated payment systems** (Rupifi Buy Now Pay Later, HDFC APIs) processing 5,000+ monthly transactions with 10% revenue accuracy improvement, **managing 250+ weekly verifications and accelerating reconciliation by 35%**.
- Built React-based **seller onboarding dashboard** serving 600+ monthly registrations, **reducing onboarding time by 30% for 2M+** user platform across 15+ states
- Developed** predictive forecasting models improving inventory accuracy by **25%** and refund processing by **20%** through **machine learning**.
- Mentored and onboarded** 3 engineers through 8 technical interviews, contributing to **team growth and technical leadership**.

SKILLS

- Programming Languages:** JavaScript/TypeScript, React, Node.js, C# .NET Core, Python.
- Databases and Cloud:** PostgreSQL, MongoDB, MySQL, Snowflake, AWS (EC2, S3, RDS), Docker, Jenkins
- Development Tools:** Git, Jira, RESTful APIs, Microservices, Agile, Unit Testing, ETL Pipelines.
- Specialisations:** SaaS Architecture, Payment Integrations, Data Analytics, Automated Forecasting Systems

ACHIEVEMENTS

- Engineered enterprise systems serving 2M+ farmers across 15+ states with 7M+ acres agricultural coverage, demonstrating large-scale system architecture and performance optimization.
- Optimized operational efficiency by 30-50% through automation and predictive analytics across payment processing, inventory management, and financial reconciliation.
- Reduced manual processing errors by 40% and improved system accuracy by 25-30% through automated workflows and real-time tracking systems.
- Successfully transformed monolithic application to scalable SaaS platform enabling multi-tenant support and global market expansion.

EDUCATION

UNIVERSITY OF MUMBAI | Mumbai, India

Aug '17 - June'21

B.E. Electronics and Telecommunication (CGPA: 7.52/10)

CERTIFICATIONS & AWARDS

- AI Innovation Award (2026) – Grow Indigo** | Recognized for applying AI to analytics, prediction models, and workflow automation, improving operational efficiency.
- Data for Good - APJ Award 2025** by Snowflake for impactful agritech data innovation
- HackerRank Certified:** Core Java (Credential ID: [0aae57b1fde8](https://www.hackerrank.com/credentials/0aae57b1fde8))
